

Exonic First

A scatter plot showing the relationship between Mismatch (X-axis) and Mismatch (Y-axis). The X-axis is labeled 'Mismatch' and has 12 categories: A→C, A→G, A→T, C→A, C→G, C→T, G→A, G→C, G→T, T→A, T→C, and T→G. The Y-axis is labeled 'Mismatch' and has 12 categories: A→C, A→G, A→T, C→A, C→G, C→T, G→A, G→C, G→T, T→A, T→C, and T→G. The plot shows a strong positive correlation between the X and Y axes, with most data points clustered near the origin (A→C, A→C) and a few points at higher values (T→C, T→C).
